Several cases of cholera, including three deaths, have occurred in what is known as the shanty district, a portion of the city bounded by 62 and 70 streets and 8th and 10th avenues, and occupied by squatters. The condition of the neighborhood is wretched, and the foul air arising from stagnated water and the flithy habits of the residents, have been the causes of the disease. The Board of Health have already abated the nuisance and thorougaly purified the place by disinfectants.

The cases which have occurred are not numerous enough to create any fears of epidemic cholera.

ADVANTAGES OVER OTHERS: SIMPLICITY OF CONSTRUCTION, SIMPLICITY OF CONSTRUCTION.

Ight draft (being the lightest craft machine in the world,) durability, closecess of cut. It never close; will cut all kinds of grass; no side draft, no weight on horses neck. The cutter bar can be raised to pass obstructions by the driver, on his seat. The cutter bar has an adjustable wheel at each end, by which all friction is avoided and height of cut regulated. Front cut—the driver can at the same time watch the cut of his machine and his horses. No risk of being thrown on cutter bar and maimed for life.

The only machine for which a
